

Conflict of Interest Declaration

1. Introduction

1.1 General

When conducting support coordination services in addition to other necessary support for a Client, to ensure that any perceived or actual conflict of interest is managed, {org.name} will:

- (1) explain our Conflict of Interest Policy to Clients in a manner that the Client is most likely to understand.
- (2) to ensure there is no conflict of interest, when {org.name} proposes to provide services that the Client requires, in addition to support coordination, endeavour to always provide 3 quotes (if possible) from other businesses, in addition to our own. It is then the Client's decision if they would like to choose our support (in addition to support coordination) or go with another provider.
- (3) make clear to the Client that their decision to choose an alternative provider will not affect their support coordination services at all, as they operate independently from each other, and that the Client need not be worried about any repercussions.
- (4) document, in case notes and/or below, the choice of providers offered to a Client and/or their nominee for each support category where a provider is to be engaged.
- (5) document, in case notes and/or below, the rationale for the Client's choice of provider for each support category where a provider is engaged.
- (6) where a Client has chosen another {org.name} service for service provision, a request for capacity or quote is documented by the support coordinator in respect of such service proposed to be offered by {org.name}.
- (7) provide information to the Client and/or their nominee at the initial meeting of the process for requesting a change in service provider, including support coordination.
