

Business Continuity & Disaster Management Plan

VERSION 1.0	EFFECTIVE	NEXT REVIEW	OWNER Principal / Key Management Personnel	APPROVED BY Governing body
-----------------------	-----------	-------------	--	--------------------------------------

The purpose of this plan is to ensure the continuation of the business, and of the supports critical to each participant's safety, health and wellbeing, during and following any critical incident that disrupts normal operations. It uses the **Prevention, Preparedness, Response and Recovery (PPRR)** framework. Read with the Emergency and Disaster Preparedness Policy, the Risk Management Policy and the Risk Register.

RELATED DOCUMENTS

1 · Prevention — risk management planning

The Risk Register identifies the risks and hazards that may adversely affect the business and the chosen method of managing each. Insurances (public liability, professional indemnity, workers compensation) are maintained, with certificates of currency kept with the emergency kit. The data security and backup strategy is set out in the Risk Register — electronic records are kept in the cloud-based storage system, and key hard-copy documents are secured with copies held offsite.

2 · Preparedness — business impact analysis

RANK	CRITICAL BUSINESS AREA	IMPACT IF IT FAILS	CURRENT PROTECTION STRATEGIES
1	Key-person risk	The Principal and Key Management Personnel are critical to the delivery of services; revenue and service delivery suffer if they are unavailable.	The governing body determines who takes responsibility for operations under the Delegation of Authority; access to a screened contractor network for backup support.
2	Fire, flood, theft, pandemic or other interruption	Inability to provide supports and services to participants; property damage.	Relevant insurances maintained; alternative workplaces or accommodation sourced while damage is repaired; consultations delivered by video or telehealth where possible.

RANK	CRITICAL BUSINESS AREA	IMPACT IF IT FAILS	CURRENT PROTECTION STRATEGIES
3	Worker impairment or absence	Inability to provide continuity of supports.	Care continuity plan: (1) another suitably qualified worker fills in temporarily; (2) engage an external agency or recruit; (3) if the absence becomes permanent, recruit a new worker. Changes explained and agreed with the participant.

3 • Response — incident response

CALLING AN AMBULANCE

Use the nearest phone to the site of the emergency. Call **000** and ask for an ambulance. State the address. Give a call-back number. State the number of patients and their symptoms.

IMMEDIATE RESPONSE — HAVE YOU...	DONE	ACTIONS TAKEN
assessed the severity of the incident?	☐	
evacuated the site if necessary?	☐	
accounted for everyone?	☐	
called emergency services where required?	☐	
notified the person responsible for this plan?	☐	
identified the participants whose critical supports are affected, and contacted them and their support networks?	☐	
activated the care continuity plan for affected supports?	☐	
completed an Incident Report Form and notified the NDIS Commission if required?	☐	

4 • Recovery

NOW THE CRISIS IS OVER — HAVE YOU...	DONE	ACTIONS
refocused efforts towards recovery?	☐	
deactivated workers and resources as necessary?	☐	
continued to gather information about the situation as it affects you?	☐	
restored normal service delivery and confirmed with participants?	☐	
debriefed workers and reviewed the effectiveness of this plan?	☐
