

SDA and SIL Collaboration Agreement

VERSION 1.0	EFFECTIVE	NEXT REVIEW	OWNER Principal / Key Management Personnel	APPROVED BY Governing body
-----------------------	-----------	-------------	--	--------------------------------------

This agreement is made between the Specialist Disability Accommodation provider (**SDAP**), the Supported Independent Living provider (**SILP**) and the client. Where [] provides SIL supports to a client living in a specialist disability accommodation dwelling, [] is the SILP. It gives effect to the NDIS Act and the SDA and SIL rules.

PARTIES

SDA PROVIDER (NAME AND ABN)

SIL PROVIDER (NAME AND ABN)

CLIENT FIRST NAME

CLIENT LAST NAME

SDA ENROLLED DWELLING (ADDRESS)

1. Purpose

SDAP is a registered Specialist Disability Accommodation provider and has an SDA residency agreement with the client. SILP is a registered Supported Independent Living provider and has a service agreement with the client. SDAP and SILP have agreed to work together in accordance with this agreement while both provide their respective services to the client. Words not defined here have the meaning given in the legislation.

2. Roles and responsibilities

SDAP provides specialist disability accommodation under the SDA residency agreement, and SILP provides supported independent living under the service agreement, at the same time. While doing so, SDAP and SILP will establish and maintain good working relationships and effective communication.

The client acknowledges and agrees that they have the right to choose and to change their SIL provider regardless of any link between SDAP and SILP, and that they have security of tenure in the SDA enrolled dwelling consistent with the SDA residency agreement.

As between SDAP and SILP: SDAP is responsible for establishing house rules; managing and addressing the client's concerns about the dwelling in accordance with SDAP's policies and plans; managing potential conflicts involving the client (except conflicts relating solely to the delivery of SIL supports); and how vacancies in its dwellings are filled, including each participant's right to have their needs, preferences and situation taken into account. SDAP and SILP are collectively responsible for managing behaviours of concern that may put other tenancies at risk, where relevant. In all cases the parties collaborate and consult with each other to meet the client's needs.

3. Co-operation and information sharing

SDAP and SILP will fully cooperate with each other in meeting the client's needs, coordinate their actions, and work closely together to support the client in the SDA enrolled dwelling. They will seek the client's consent to share information with each other (about the client and the services each provides), and will communicate promptly if the client's accommodation needs change or the dwelling requires modification, if issues arise regarding the client's behaviour that affect other residents or the operation of the dwelling, and in the event of any incidents, including reports of violence, abuse and neglect. The obligation to communicate and share information applies only so far as necessary and where lawful.

4. Home risk assessment

A home risk assessment of the client's accommodation is completed in substantially the form of the annexure to this agreement and reviewed when circumstances change.

5. General

This agreement continues while both the SDA residency agreement and the SIL service agreement are in effect. It may only be amended in writing signed by the parties, is governed by the law of the place where the dwelling is located, and does not make the parties partners or agents of one another.
