

Conflict of Interest Declaration

VERSION 1.0	EFFECTIVE [REDACTED]	NEXT REVIEW [REDACTED]	OWNER [REDACTED]	APPROVED BY [REDACTED]

WHY THIS DECLARATION EXISTS

When [REDACTED] provides support coordination *and* other supports to the same client, a real or perceived conflict of interest can arise. This form records that the conflict has been explained and that the client has made an informed choice.

1. How [REDACTED] manages the conflict

- Explains the Conflict of Interest Policy to the client in a way they are most likely to understand.
- Where [REDACTED] proposes to provide a support the client needs in addition to support coordination, endeavours to always provide at least three quotes (where possible) from other providers, alongside its own.
- Makes clear that choosing another provider will not affect the client's support coordination in any way — the services operate independently and there are no repercussions.
- Documents the providers offered, and the reasons for the client's choice, for each support category.
- Explains, at the first meeting, how the client can request a change of provider, including a change of support coordinator.
