

Emergency Waste Management Plan

VERSION 1.0	EFFECTIVE 	NEXT REVIEW 	OWNER 	APPROVED BY
-----------------------	-----------------------------------	-------------------------------------	-------------------------------	-------------------------------------

Read together with the Waste Management Policy. This plan applies to an emergency relating to hazardous substances and spills. If the plan is implemented, the Principal (or delegate) reviews its effectiveness and makes any necessary changes.

Responding to a hazardous spill — all workers

- a. Evacuate the contaminated area.
- b. Decontaminate the eyes and skin of exposed personnel immediately.
- c. Inform the designated person (usually the Principal), who coordinates the necessary actions.
- d. Determine the nature of the spill.
- e. If the spill involves a particularly hazardous substance, evacuate all people not involved in cleaning up.
- f. Provide first aid and medical care to injured people.
- g. Secure the area to prevent exposure of additional people.
- h. Provide adequate protective clothing to personnel involved in cleaning up.
 - i. Limit the spread of the spill and clean up in accordance with the Waste Management Policy.
- j. Neutralise or disinfect the spilled or contaminated material if indicated, in accordance with the Waste Management Policy.
- k. Collect all spilled and contaminated material in accordance with the Waste Management Policy. **Sharps must never be picked up by hand** — use brushes and pans or other suitable tools; spilled material and disposables go into the appropriate waste container.
 - l. Decontaminate or disinfect the area, rinse it, and wipe it dry with absorbent cloth.
- m. Decontaminate or disinfect any tools that were used.
- n. Remove protective clothing and decontaminate or disinfect it if necessary.
- o. Seek medical attention if exposure to hazardous material occurred during the operation.
- p. Report the incident under the Incident Management and Reporting Policy and record it in the Incident Register.

After implementing this plan

The Principal (or delegate) reviews the effectiveness of the plan and this Emergency Waste Management Plan, and makes relevant changes if necessary.
