

Implementing Behaviour Supports Plans Policy and Procedures

VERSION 1.0	EFFECTIVE 	NEXT REVIEW 	OWNER 	APPROVED BY
-----------------------	-----------------------------------	-------------------------------------	-------------------------------	-------------------------------------

PURPOSE AT A GLANCE

This policy explains how implements the behaviour support plans developed by specialist behaviour support providers (Module 2A) — training workers to deliver the plan, using regulated restrictive practices only in accordance with an authorisation and the plan, collecting and reporting data, and working with the specialist provider to reduce and eliminate restrictive practices.

1. Purpose and scope

This policy supports to apply the Implementing Behaviour Support Plans NDIS Practice Standard. It applies to all services and supports delivered by and to all employees, contractors and volunteers (**Workers**), who must take full responsibility for understanding and following it. It should be read alongside the related documents in the final section and the corresponding procedures in the Policy Register.

2. Policy aims

is committed to ensuring that:

- each participant accesses behaviour support appropriate to their needs that incorporates evidence-informed practice and complies with relevant legislation and policy frameworks;
- each participant is only subject to a regulated restrictive practice that meets State or Territory authorisation requirements and the Commonwealth safeguards, and that is used in accordance with the behaviour support plan and reported to the NDIS Commission;
- each participant's behaviour support plan is implemented effectively to meet their needs and works towards improving quality of life and reducing behaviours of concern and restrictive practices; and
- any emergency or unauthorised use of a restrictive practice is reported and reviewed, and a participant with an immediate need receives an interim behaviour support plan.

3. Knowledge and training

Workers implementing a behaviour support plan have appropriate knowledge and understanding of evidence-informed practice, of regulated restrictive practices as described in the NDIS (Restrictive Practices and Behaviour Support) Rules 2018, and of the authorisation and reporting requirements. Before implementing a plan, each worker is trained by the specialist behaviour support provider (or a suitably qualified person) in the specific plan and, where physical restraint is used, by a restrictive-practice trainer. Training is recorded on the Coaching Form for PBSP and in the Training and Development Register (IBS), and a Positive Behaviour Support Plan Training Report is completed.

4. Using restrictive practices

A regulated restrictive practice is used only in accordance with the participant's behaviour support plan and all the requirements in the Rules, and only where State or Territory authorisation (however described) has been obtained where required, with evidence submitted. Each plan that contains a regulated restrictive practice is recorded in the Register for PBSP that contain a regulated restrictive practice. The use of a regulated restrictive practice is reported to the NDIS Commission **each month** and after any unauthorised or emergency use, which is also reviewed under the Incident Management and Reporting Policy.

5. Data, collaboration and review

collects ongoing data on the implementation of the plan (ABC Data Forms and other formal and informal measures) and provides it to the specialist behaviour support provider.

works with that provider to review the plan and the effectiveness of strategies to reduce restrictive practices, at least every 12 months (or sooner if required), together with a review of all incidents in the previous 12 months, using the Review Register for PBSP that contain a regulated restrictive practice. A Template Letter to the specialist behaviour support provider is used to confirm the information-sharing and data arrangements.

6. Definitions

, ABN .

Client

A client of , including an NDIS participant.

Key Management Personnel (KMP)

, and other key management personnel involved in from time to time.

Principal

.

Legislation Register

The register of legislation, regulations, rules and guidelines maintained by .

Policy Register

The register of policies of .

Worker
