

Quality Management and Continuous Improvement Policy

VERSION 1.0	EFFECTIVE [REDACTED]	NEXT REVIEW [REDACTED]	OWNER [REDACTED]	APPROVED BY [REDACTED]
-----------------------	-------------------------	---------------------------	---------------------	---------------------------

PURPOSE AT A GLANCE

This policy explains how [REDACTED] maintains a quality management system — compliance with legislation and the NDIS Practice Standards, a documented program of internal audits, and continuous improvement driven by outcomes, risk-related data, evidence-informed practice and feedback from participants and workers.

1. Purpose and scope

This policy supports [REDACTED] to apply the Quality Management NDIS Practice Standard. It applies to all services and supports delivered by [REDACTED] and to all employees, contractors and volunteers (**Workers**), who must take full responsibility for understanding and following it. It should be read alongside the related documents in the final section and the corresponding procedures in the Policy Register.

2. Policy aims

[REDACTED] is committed to ensuring that:

- a quality management system is maintained that is proportionate to the size and scale of the provider and the scope and complexity of support and defines how to meet the NDIS Practice Standards;
- the system has a documented program of internal audits proportionate to the provider; and
- the system supports continuous improvement using outcomes, risk-related data, evidence-informed practice and feedback from participants and workers.

3. Compliance

[REDACTED] is committed to compliance with all applicable legislation and the NDIS Practice Standards. There are no circumstances in which it is acceptable for [REDACTED] or any of its Key Management Personnel or workers to knowingly and deliberately not comply with the law.

[REDACTED] maintains the Legislation Register of all mandatory requirements and their monitoring mechanisms.

4. Internal audits

[REDACTED] conducts internal audits, using the Internal Audit Schedule and Internal Audit Sheet, to confirm that policies and procedures are being followed, are working as intended, and are reviewed and amended as necessary. Audits assess each applicable NDIS Practice Standard against its quality indicators, record evidence, identify any non-conformity and its root cause, and result in corrective action and opportunities for improvement entered in the Continuous Improvement Register.

5. Continuous improvement

progressively improves the delivery of its services and supports, enhances performance against the NDIS Practice Standards, and identifies opportunities for improvement in a systematic and planned way — using risk-related data, contemporary evidence-based practice, and feedback from participants, carers, families and workers. Improvement items are logged, prioritised, assigned and tracked to completion in the Continuous Improvement Register, and progress is reported to the governing body.
