

Review Register — PBSP containing a Regulated Restrictive Practice

VERSION 1.0	EFFECTIVE 	NEXT REVIEW 	OWNER 	APPROVED BY
----------------	-----------------------------------	-------------------------------------	-------------------------------	-------------------------------------

Each participant has a current behaviour support plan that reflects their needs and works towards improving quality of life and reducing behaviours of concern and restrictive practices. Behaviour support plans containing a regulated restrictive practice are reviewed every 12 months (or sooner), together with a review of all incidents in the previous 12 months, with a particular focus on the reduction and elimination of regulated restrictive practices. Record each review here.
