

Risk Register

VERSION 1.0	EFFECTIVE 	NEXT REVIEW 	OWNER 	APPROVED BY
----------------	---------------	-----------------	-----------	-----------------

HOW TO USE THIS REGISTER

Identify each hazard that could affect , its Workers or its clients. Rate the **likelihood** of harm and the resulting **risk level** using the matrix below. Record the controls already in place and any further controls required, who is responsible, and review dates. Review the whole register at least annually, and any individual risk sooner if the hazard or likelihood materially changes. The pre-filled rows are common starting points — edit them to reflect and add your own.

		Impact				
		Negligible	Minor	Moderate	Significant	Severe
Probability	Very likely	Low/Mod	Moderate	Mod/High	High	High
	Likely	Low	Low/Mod	Moderate	Mod/High	High
	Possible	Low	Low/Mod	Moderate	Mod/High	Mod/High
	Unlikely	Low	Low/Mod	Low/Mod	Moderate	Mod/High
	Very unlikely	Low	Low	Low/Mod	Moderate	Moderate

HAZARD	POTENTIAL HARM	LIKELIHOOD	RISK LEVEL	CONTROLS CURRENTLY IN PLACE	FURTHER CONTROLS REQUIRED	ACTIONED BY	DATE DUE	DONE	MAINTENANCE & REVIEW
BUSINESS & OPERATIONAL RISKS (READ WITH THE BUSINESS CONTINUITY & DISASTER MANAGEMENT PLAN)									
Support delivery / Worker availability	Revenue and service delivery suffer if Workers are unavailable due to unplanned absence.	Low	Low	- Access to additional screened, qualified contractors through 's professional network - Contractors receive policies and processes on engagement; NDIS worker screening obtained	Engage additional Workers as client demand requires succession plan				ly, or sooner if the hazard or likelihood materially changes

HAZARD	POTENTIAL HARM	LIKELIHOOD	RISK LEVEL	CONTROLS CURRENTLY IN PLACE	FURTHER CONTROLS REQUIRED	ACTIONED BY	DATE DUE	DONE	MAINTENANCE & REVIEW
Worker-related risks	Worker turnover, work health and safety, and the largely autonomous nature of the role.	Moderate	Moderate	- Human Resources Management Policy — Workers trained, protected and invested - Work Health and Safety Policy — physical and psychological harm controlled - Client records kept in the cloud-based storage system - Competitive remuneration to attract capable Workers	Review controls when new Workers are engaged		months of supports commencing		ly, or sooner if the hazard or likelihood materially changes
Fire, flood, theft, pandemic or other business interruption	Property damage to workplaces and interruption to service delivery.	Low	Low	- Insurances maintained per the Business Continuity Plan and Risk Management Policy - Consultations can continue by video or telehealth - Alternative venues sourced while damage is repaired - Business Continuity Plan and evacuation procedures	Periodic review of insurances				ly, or sooner if the hazard or likelihood materially changes
Legislative compliance	Failing to meet NDIS, Federal or State legislative requirements.	Moderate	Moderate	- Legislation Register maintained and reviewed - Scheduled reviews and internal audits of policies and procedures per the Quality Management and Continuous Improvement Policy	Engage external consultants and lawyers to review and update policies and pursue best practice				ly, or sooner if the hazard or likelihood materially changes
Financial sustainability	Working capital and liquidity issues; overdue fees affecting cash flow.	Low	High	- Cash flow monitored daily, weekly and monthly - Clear understanding of NDIS pricing and payment terms - Outstanding client payments reviewed regularly and followed up - Access to external and principal borrowings if needed	Consider terminating a Services Agreement on persistent late payment				ly, or sooner if the hazard or likelihood materially changes
Data breach	Loss of client records; breaches of confidentiality and privacy.	Low	High	- Electronic client records kept in the secure cloud-based storage system - Key hard-copy documents secured; copies held with accountants - Access controls, encryption and password protection	Review access permissions periodically				ly, or sooner if the hazard or likelihood materially changes
Reputational risk	Poor internal management or service delivery causing reputational damage.	Low	Low	- Feedback and Complaints Management System encourages client feedback - Regular Client Survey	—		supports commence		ly, or sooner if the hazard or likelihood materially changes
Staff retention & qualifications	Turnover and instability; Workers engaged without the required knowledge or experience.	Low–Moderate	Low–Moderate	- Staff Performance Improvement Plan and Training & Development Register - Exit Interview Form and Staff Exit Checklist - Pre-Employment Collection Form, Staff File Checklist, Reference Check Form, Interview Report Pro Forma	Above-market remuneration for deserving Workers		new Workers		ly, or sooner if the hazard or likelihood materially changes

HAZARD	POTENTIAL HARM	LIKELIHOOD	RISK LEVEL	CONTROLS CURRENTLY IN PLACE	FURTHER CONTROLS REQUIRED	ACTIONED BY	DATE DUE	DONE	MAINTENANCE & REVIEW
CLIENT-SPECIFIC RISKS									
Client reliance on support delivery	Clients are dependent on continuity of services and may experience significant detriment if supports are unavailable.	Low	Low	- Backup support available through screened contractors - Business and client continuity processes in the Business Continuity, Emergency and Disaster Preparedness Plan	Engage additional Workers to meet client demand		supports commence		ly, or sooner if the hazard or likelihood materially changes
Sole-support arrangements in a client's home	Neglect, abuse or exploitation — heightened where risk factors are identified or the client is subject to a significant risk factor.	Client-specific	Client-specific	- Provision of Supports Policy sets a monitoring, supervision and review process for the risk-assessed group - Services Agreement and Client Information Booklet explain how risks are managed	- Client and representative made aware of the risk and controls - Worker guidance on sole-support risk				rdance with the Services Agreement and Risk Assessment
Physical or psychological harm to clients; medication adverse events	Injury or harm to clients, including from medication administration.	Client-specific	Client-specific	- Risk Assessment Form and WHS walk-around completed with each client - Administering Medication Checklist / Medication Chart	Workers trained in medication administration (accredited course), CPR and first aid		supports commence		ired when changes occur
WORK HEALTH & SAFETY RISKS (READ WITH THE WORK HEALTH AND SAFETY POLICY AND MANAGING AND REDUCING KNOWN RISKS MATRIX)									
Infectious disease transmission (clients or Workers)	Workers or others contracting COVID-19 or another disease, potentially causing serious illness.	Moderate–High	Moderate	- Controls in the COVID-19 Pandemic Management Policy and Infection Control Policy - Workers trained in PPE use and infection control	Additional protective measures as advised by government				red as government advice changes
Worker fatigue	Injury to Workers or others from fatigue-related accidents or illness.	Moderate–High	High	- Breaks provided between services - Rostering ensures two full days off when working long hours	Additional controls per the Managing and Reducing Known Risks Matrix				red based on client load
Client aggression	Physical or psychological injury to Workers.	Moderate–High	High	- Regular check-ins with Workers to address client concerns - Workers can report aggressive clients; access to psychological support on request - Policies to manage abusive or violent behaviour	Training for Workers on communicating with aggressive clients				red if occurrences are reported
ADDITIONAL RISKS — ADD YOUR OWN									

HAZARD	POTENTIAL HARM	LIKELIHOOD	RISK LEVEL	CONTROLS CURRENTLY IN PLACE	FURTHER CONTROLS REQUIRED	ACTIONED BY	DATE DUE	DONE	MAINTENANCE & REVIEW

Duplicate the blank rows as needed. Store the completed register in the document management system and record reviews in the Continuous Improvement Register.
