

Support Coordination Policy

VERSION 1.0	EFFECTIVE [REDACTED]	NEXT REVIEW [REDACTED]	OWNER [REDACTED]	APPROVED BY [REDACTED]
-----------------------	-------------------------	---------------------------	---------------------	---------------------------

PURPOSE AT A GLANCE

This policy explains how [REDACTED] delivers support coordination — connecting each participant with suitable NDIS and mainstream providers, giving transparent factual advice that promotes choice and control, facilitating collaboration between providers, and managing conflicts of interest where [REDACTED] also delivers other supports.

1. Purpose and scope

This policy supports [REDACTED] to apply the Support Coordination NDIS Practice Standard. It applies to all services and supports delivered by [REDACTED] and to all employees, contractors and volunteers (**Workers**), who must take full responsibility for understanding and following it. It should be read alongside the related documents in the final section and the corresponding procedures in the Policy Register.

2. Policy aims

[REDACTED] is committed to ensuring that:

- suitable NDIS and mainstream providers with the right skills and experience are engaged to meet each participant's individual needs, preferences and circumstances;
- consultation is undertaken with the participant and, with their consent, their support network and mainstream services, in planning and coordinating support to implement the participant's plan;
- each participant exercises meaningful choice and control over their providers, maximises value for money, and receives transparent, factual advice about their options; and
- the Conflict of Interest Policy is provided or explained to each participant in the language and mode they are most likely to understand.

3. Competent support coordinators

[REDACTED] only engages support coordinators who meet the requirements of the Support Coordinator Position Description.

4. Support planning and review

As part of support planning, [REDACTED] consults the participant and, with their consent, their support network and mainstream services. Periodic plan reviews are scheduled with the participant (and, with consent, their support network and mainstream services) at least quarterly, or more often where needs or risks change. Any incident involving a participant receiving support coordination is managed under the Incident Management and Reporting Policy.

5. Ensuring suitable providers

When determining whether an NDIS or mainstream provider has the appropriate skills and experience, the support coordinator: investigates potential providers who claim relevant experience with participants of similar needs; requests information that substantiates that experience; where practicable finds at least three alternatives of each suitable provider so the participant and their family can exercise choice and control; presents the options to the participant (and, with consent, their support network) in the mode of communication and terms they are most likely to understand; and informs the participant of any relevant conflict where one of the options is [REDACTED] or a provider connected to it.

6. Facilitating collaboration

The support coordinator ensures all providers the participant selects understand and respond to the risk and complexity of the participant's situation — proactively facilitating discussions and periodic meetings between the participant and implementing providers, and facilitating discussions between providers in response to a crisis, incident or breakdown of support arrangements. The support coordinator manages all monitoring and reporting obligations associated with the participant's plan, arranges supports using the participant's plan amounts as they direct, and builds the participant's capacity to coordinate, self-direct and manage their supports and to participate in NDIA planning processes.

7. Conflict of interest

The Conflict of Interest Policy is provided or explained to each participant. Where [REDACTED] provides, or seeks to provide, support or services in addition to support coordination, the participant enters into a Conflict of Interest Declaration and [REDACTED] follows the quote and documentation steps in that policy.

8. Definitions

[REDACTED]
[REDACTED], ABN [REDACTED].

Client

A client of [REDACTED], including an NDIS participant.

Key Management Personnel (KMP)

[REDACTED], and other key management personnel involved in [REDACTED] from time to time.

Principal

[REDACTED].

Legislation Register

The register of legislation, regulations, rules and guidelines maintained by [REDACTED].

Policy Register

The register of policies of [REDACTED].

Worker

A permanent, fixed-term or casual member of staff, a contractor or a volunteer engaged by [REDACTED], including the Principal.

Support Coordinator

An appropriately competent practitioner engaged by [redacted] who meets the requirements of the Support Coordinator Position Description.
