| VERSION<br>1.0 | EFFECTIVE | NEXT REVIEW | OWNER<br>Principal / Key Management<br>Personnel | APPROVED BY<br>Governing body |
|----------------|-----------|-------------|--------------------------------------------------|-------------------------------|

The internal-audit schedule for Module 4 – Specialised Support Coordination. Audits are conducted using this schedule and the Internal Audit Sheet, in accordance with the Quality Management and Continuous Improvement Policy. Record any non-conformity, its root cause, corrective action and opportunities for improvement, and enter improvement actions in the Continuous Improvement Register.

Schedule

 conducts internal audits of Module 4 – Specialised Support Coordination at least three times a year (April, July and October) and whenever a significant change occurs. Each audit assesses the applicable NDIS Practice Standards against their quality indicators.

| AUDIT MONTH | PRACTICE STANDARDS AUDITED                                             | INTERNAL AUDITOR     | DATE COMPLETED       |
|-------------|------------------------------------------------------------------------|----------------------|----------------------|
| April       | Module 4 – Specialised Support Coordination – all applicable standards | <input type="text"/> | <input type="text"/> |
| July        | Module 4 – Specialised Support Coordination – all applicable standards | <input type="text"/> | <input type="text"/> |
| October     | Module 4 – Specialised Support Coordination – all applicable standards | <input type="text"/> | <input type="text"/> |

Indicators to assess

| QUALITY INDICATOR TO BE DEMONSTRATED                                                                                                                 | EVIDENCE & COMMENTS  | CONFORMS?<br>(Y/N)   | DETAILS OF ANY NON-<br>CONFORMITY | ROOT CAUSE           | OPPORTUNITY FOR<br>IMPROVEMENT | CORRECTIVE<br>ACTION | IN CI<br>REGISTER?   | AUDITOR              | DATE<br>COMPLETE     |
|------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|----------------------|-----------------------------------|----------------------|--------------------------------|----------------------|----------------------|----------------------|----------------------|
| SPECIALISED SUPPORT COORDINATION                                                                                                                     |                      |                      |                                   |                      |                                |                      |                      |                      |                      |
| Specialised support coordination is delivered by an appropriately qualified practitioner to participants with complex needs or high-risk situations. | <input type="text"/> | <input type="text"/> | <input type="text"/>              | <input type="text"/> | <input type="text"/>           | <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |
| The practitioner addresses barriers to implementing the participant's plan and builds the participant's capacity to coordinate supports.             | <input type="text"/> | <input type="text"/> | <input type="text"/>              | <input type="text"/> | <input type="text"/>           | <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |

| QUALITY INDICATOR TO BE DEMONSTRATED                                                                                                     | EVIDENCE & COMMENTS | CONFORMS?<br>(Y/N) | DETAILS OF ANY NON-<br>CONFORMITY | ROOT CAUSE | OPPORTUNITY FOR<br>IMPROVEMENT | CORRECTIVE<br>ACTION | IN CI<br>REGISTER? | AUDITOR | DATE<br>COMPLETE |
|------------------------------------------------------------------------------------------------------------------------------------------|---------------------|--------------------|-----------------------------------|------------|--------------------------------|----------------------|--------------------|---------|------------------|
| Referrals and progress are documented (Referral Register, Support Coordination Tracker) and communicated with the participant's consent. |                     |                    |                                   |            |                                |                      |                    |         |                  |
| Risks are identified, monitored and responded to, and the participant is supported to connect with mainstream and community services.    |                     |                    |                                   |            |                                |                      |                    |         |                  |
