HOW TO USE THIS REGISTER

Identify each hazard that could affect [redacted], its Workers or its clients. Rate the **likelihood** of harm and the resulting **risk level** using the matrix below. Record the controls already in place and any further controls required, who is responsible, and review dates. Review the whole register at least annually, and any individual risk sooner if the hazard or likelihood materially changes. The pre-filled rows are common starting points — edit them to reflect [redacted] and add your own.

|             |               | Impact     |          |          |             |          |
|-------------|---------------|------------|----------|----------|-------------|----------|
|             |               | Negligible | Minor    | Moderate | Significant | Severe   |
| Probability | Very likely   | Low/Mod    | Moderate | Mod/High | High        | High     |
|             | Likely        | Low        | Low/Mod  | Moderate | Mod/High    | High     |
|             | Possible      | Low        | Low/Mod  | Moderate | Mod/High    | Mod/High |
|             | Unlikely      | Low        | Low/Mod  | Low/Mod  | Moderate    | Mod/High |
|             | Very unlikely | Low        | Low      | Low/Mod  | Moderate    | Moderate |

| HAZARD                                                                                      | POTENTIAL HARM                                                                           | LIKELIHOOD | RISK LEVEL | CONTROLS CURRENTLY IN PLACE                                                                                                                                                                                                                     | FURTHER CONTROLS REQUIRED                                                                                                             | ACTIONED BY | DATE DUE                 | DONE                     | MAINTENANCE & REVIEW                                               |
